

The Ultimate Auto-Levelling and Auto-Stabilising Setup

One-Touch Perfection. No More Manual Jacking, No More Wobbly Caravans - Just One-Touch Perfection

Setting up a caravan has always been a time-consuming, frustrating process. Traditional caravans require manual jacking, levelling ramps, and hours of trial and error just to get the van stable. And even after all that effort, the caravan still shakes and moves every time someone walks inside.

The Counterstrike Vincere changes everything with Garmin-integrated Auto-Levelling and Auto-Stabilizing technology. At the press of a button from the built-in touchscreen, portable display or in-vehicle Garmin mount, the caravan automatically adjusts to a perfect level and locks in rock-solid stability on any terrain.

Ultimate Remote Travel Capability

- ✦ Fully integrated Garmin control—level and stabilise with simple touch
- ✦ Air suspension auto-levelling for perfect ride height and camping level
- ✦ All-electric stabilisers for rock-solid stability
- ✦ No more jacks, ramps, or manual adjustments
- ✦ No more wobbly movement when walking inside
- ✦ No more time wasted setting up camp

Automatic Levelling and Stabilising for Instant Setup

Arriving at remote locations is effortless at the push of a button.

- ▶ Air suspension auto-levels the van in seconds
- ▶ One-touch control automatically adjusts instantly for any uneven terrain
- ▶ All-electric stabilisers lock into place for rock-solid support.

Remote Control Functionality

Intuitive setup with effortless auto adjustments.

- ▶ The entire system is controlled via an integrated Garmin Smart Interface
- ▶ Full control from the central control, portable screen or in-vehicle mount
- ▶ Jockey Wheel Touch Screen-Adjustment
- ▶ Real-time levelling data reports exactly when your van is level and stable.

The Future of Caravan Setup and Perfect Stability

Say goodbye to the frustration of manual caravan setup - experience the future of effortless levelling and rock-solid stability with just the touch of a button.

- ▶ Instant, Effortless Setup - No manual jacking, ramps, or adjustments just press a button and it's done
- ▶ Rock-Solid Stability - All-electric stabilisers eliminate movement inside the van, so walking and cooking won't cause shaking
- ▶ Always Level, Anywhere - Whether on rocky, sloped, or soft ground, air suspension ensures a perfectly flat, stable setup
- ▶ Seamless Smart Control - Garmin Technology integration allows one-touch levelling and stabilisation
- ▶ Less Effort, More Adventure - Skip the hassle of manual setup and start enjoying your trip the moment you arrive
- ▶ Secure and Stress-Free - No more shifting appliances, uneven sleep, or wobbly surfaces everything stays exactly where you left it.
