AF range - affordable adventures

For those who want the freedom of the open road without the heavy investment, the AF Range makes it possible. It's built for shorter trips and temperate climates — the getaways where simplicity, comfort, and affordability matter most.

the mission

To make owning a Kokoda accessible, without compromising the essentials of strength, reliability, and freedom.

the features that enable it

A strong aluminium frame and simplified systems keep costs down and towing easy. Designed for less extreme climates, the AF Range balances practical comfort with smart design, so you can enjoy weekends away, school holiday escapes, and spontaneous trips.

the experience

The AF feels like your ticket in. It's the Kokoda quality you trust, at a price that lets you take the leap into caravan ownership. Simple, affordable, and ready to roll.

AF

why choose the AF range?

Freedom made affordable — the Aluminium Range delivers Kokoda strength, comfort, and reliability without compromise.

engineered for comfort in every climate.

Couples C189

specs

Internal Fridge
274 Litre Thetford Fridge / Freezer

Washing Machine
The C189 has a 3.2kg top load washing machine. The washing machine is hidden in a cupboard under the bench, in the ensuite.

Cabin Length
18'9"

why choose the C189?

Many existing owners love how this van maximises space while keeping weight low, making it perfect for remote camping and easy towing without a vehicle upgrade. Ask us about a factory tour to confirm its strength and build quality to compare your options.

comfort in every layout.

Water Tank

More water. More freedom.

Expand your fresh water capacity by 110L with an underbody-mounted tank protected by a durable stone guard.

key features

- Each additional tank provides 110L of fresh water, allowing you to stay off-grid for longer without needing to refill.
- Travel to more remote destinations knowing you have extra water for drinking, cooking, showering and washing up.
- Mounted securely underneath the caravan, each tank is protected by a stone guard to help withstand rough off-road conditions.

specs

Impact on Tare (empty)	25kg
Impact on Ball Weight	0kg

why this upgrade matters

More water. More freedom.

Adding an extra 110L fresh water tank gives you the confidence to venture further and stay longer. Protected by a stone guard and neatly mounted underneath the caravan, it's a practical upgrade that expands your off-grid capability while adding just 25kg to the caravan's tare weight (empty). It's a simple way to make every adventure more flexible.

confidence in every journey.

Grey Water Tank with Bypass (110L)

Stay Compliant. Stay Clean. Camp Anywhere.

A grey water tank allows you to collect wastewater from sinks and showers, making your van compliant with many caravan parks and environmentally sensitive locations.

key features

- 110L grey water tank
- Mounted underneath van
- Protected with galvanised shield/cover
- Integrated bypass system
- Tank sensor viewed on Victron display

key notes (considerations)

- Requires manual management of bypass (depending on location)

benefits to you

- Access to more caravan parks and regulated sites
- Environmentally responsible waste management
- True self-contained capability
- Flexibility to camp in more locations
- Monitor grey water levels through Victron display

bypass functionality

- When in caravan parks, water can bypass the tank
- Direct drainage to sillage hose connection
- No need to fill and empty tank unnecessarily

why this upgrade matters

A 110L Grey Water Tank gives you greater flexibility to camp in more locations while staying compliant with caravan park and environmental requirements. With an integrated bypass system, you can switch between collecting grey water or draining directly to a sillage connection when permitted.

A tank sensor viewed through the Victron display allows you to easily monitor grey water levels while travelling. Protected underneath the van with a galvanised shield, it adds true self-contained capability for cleaner, more responsible travel.

confidence in every journey.

Exterior Panels

White

white

**Please note: image shows an XC model in the White.*

Panel Colour	White
