## FEEL THE FORCE

This van was made for the family that likes to make memories on their own terms. Smart and spacious, thoughtfully designed and built to take on the toughest trails... You'll consider trading in the static life for a 12 month tour of Australia with the Force 7.

## WHAT YOU'LL LOVE INSIDE

Ample bench space, stacks of storage and a super comfy L shaped lounge highlight the center of the living zone. 1.9m bunks with underbed storage and a large wardrobe means the kids can pack all of their favourite things with them on the adventure. USB ports are smartly located in each of the reading lights in the bed and living areas.

Tyres	Heavy-Duty Off-Road M/T
Hitch	D035
Chassis	6" DuraGal
A-Frame	6" DuraGal
Raiser	2" DuraGal
Axle	Dual
Mud Flaps	Back

### IT'S NOT JUST A PRETTY FACE

The Force 7 is a head turner of course. But what makes this van so special is the Al-Ko Enduro X suspension, built for the toughest off-road experiences and the 2" riser we've added to the 6" DuraGal Australian steel chassis. Top that off with 16" wheels and you've got one beautiful beast!

### STANDARD NOT EXTRA

At Kokoda we know our campers need to be adventure ready so we include some features as a standard that the "other guys" think should be an extra. A large toolbox on the A-frame features twin slide outs for a generator and a 12v point on the awning side for a portable fridge/freezer. External hot/cold showers means you don't have to muddy up the van when you need to rinse the family off after a day playing in the dirt. Two full size spare tyres and 20L jerry can holders compliment the rear of the van perfectly.

\*Some images contain upgrades, such as; 3 bunks & windows, reverse camera.

### CONSTRUCTION

Frame	Meranti
Insulation	Walls & Roof
Cladding (Sides)	High Profile Aluminium (Carbon Fibre Black)
Cladding (Front & Rear)	Flat Aluminium Composite (Matt Black)
